<p> Connect to Protect is the DOD slogan for the month of September to
emphasize healthy relationships between family, and friends. USAFA has also
made sure to make it clear that this message is echoed throughout the
community. According to <cite> Dr. Ken Robinson </cite> , <q> This special
month allows the Academy community to rally around the issue and build stronger
connections from a community perspective </q>. It's also important to note that
USAFA's efforts to connect the community more, this is also happening in all other
branches of the military and in a lot of places in the United States. </p>
